7-SERIES FORKLIFTS

Electric 4.0 to 5.0 ton capacity

4 wheel

Doosan Industrial Vehicle **7 Series Electric Forklifts** _ 4.0 to 5.0 Ton Series 03

Leading the way

The new world class 7-Series trucks from Doosan continue to follow the core Doosan tradition of delivering simple, powerful performance, whilst most of all, delivering the best possible value for our customers.

The new 7 Series of 4 wheel electric counterbalance forklift trucks, continue to follow the core Doosan tradition of delivering simple, powerful performance, whilst most of all, delivering the best possible value for our customers.

The specially designed ergonomic operator compartment keeps the operator in complete control at all times, improving productivity and reducing stress and fatigue.

The new model offers improved visibility and the latest design in ergonomic hydraulic controls. Thanks to an improved durable design, Doosan's new 7 Series electric trucks exceed the highest demands for safe operation.

The latest in AC control systems provide an unbeatable combination of power, performance and reliability. Each parameter is fully adjustable to perfectly match every your individual requirement, providing maximum control and accuracy for every function.

Higher lifting and travel speed enables me to reach optimal efficiency in my job

PRODUCTIVITY

- Excellent visibility
- Smooth driving sensitivity
- Direction switch on main control valve

The robustness of the Doosan truck ensures that even the toughest of jobs gets done

RELIABILITY

- Reliable AC control
- Durable transaxle
- Durable Oil cooled disc brake

The Doosan service support network has never let me down

SERVICEABILITY

- Doosan service network coverage
- Quick service response
- Easy to fix design

With the reassuring features of Doosan truck, operation is safe and comfortable

SAFETY AND ERGONOMICS

- Anti roll back
- Operator Sensing System (OSS)
- Automatic speed control
- ISO3691 Hydraulic locking

Features overview

The Doosan 4-wheel electric counterbalance forklifts provide great power, excellent performance, enhanced safety, driving comfort, outstanding serviceability and reliability.

MAXIMUM PRODUCTIVITY

Excellent visibility

Smooth and responsive acceleration

Direction switch on hydraulic control lever

SAFETY

Anti roll back

Automatic speed control

ISO3691 Hydraulic locking

Operator sensing system (OSS)

Emergency switch

LED lights

Large panoramic mirror

Turtle mode

OPTIMAL ERGONOMICS

Easy and instinctive display

Convenience tray

Compact steering wheel

Adjustable seat

Adjustable steering column

EXCELLENT RELIABILITY

Reliable AC controller

Rugged and durable twin drive axle

ODB - Oil cooled disc brakes

IP 43 rated drive & pump motors

Water and dust proof for outdoor use

GREAT SERVICEABILITY

Worldwide service network

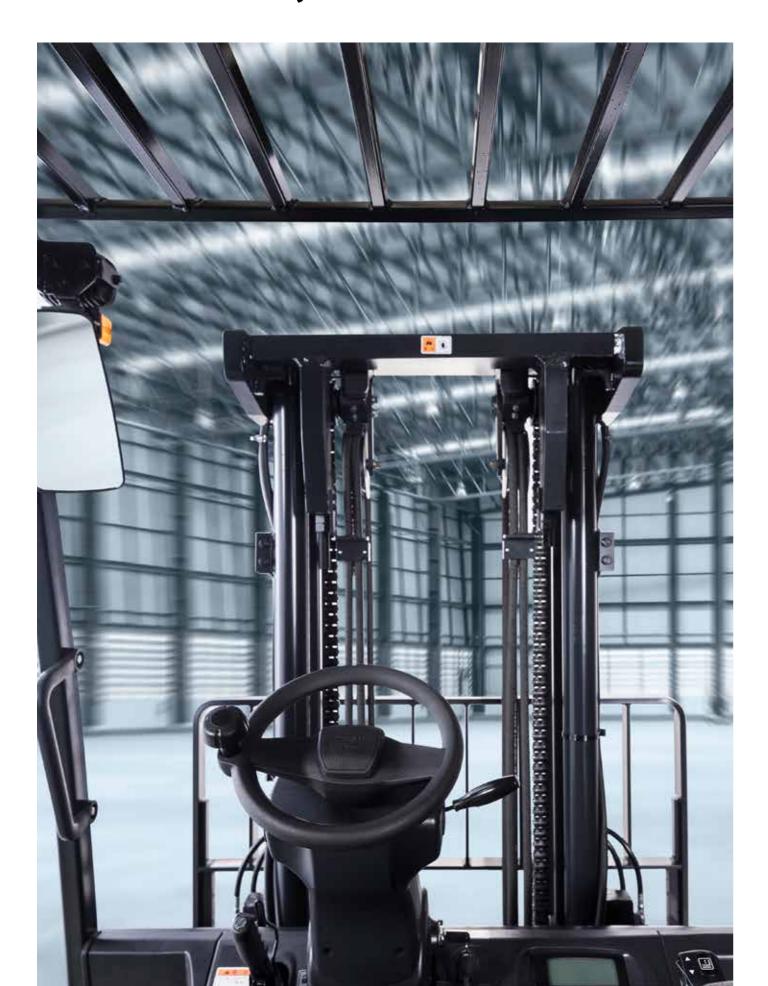

Doosan genuine parts

Easy to access controller room and electric parts

Easy view

Doosan Industrial Vehicle o6 7 Series Electric Forklifts _ 4.0 to 5.0 Ton Series

Maximum Productivity

The neatly arranged hydraulic hoses and chains provide clear front visibility through the wide view mast.

Hydraulic lever with directional switch (optional)

The direction switch is located on the lift lever, which makes it easier for the operator to quickly change between forward and backward driving direction.

Productive acceleration & braking

The productive acceleration and braking gives the operator maximum safety and convenience. When starting the truck, the initial acceleration is reduced for safe & comfortable movement. The acceleration increases when driving at mid & high-speed for a more productive operation. An ergonomically positioned brake decreases the braking pedal effort.

Finger tip controls (optional)

Fast, precise and infinitely controllable fingertip control makes the 7-series effortless and efficient.

Excellent visibility

The precisely designed overhead guard profile with angled roof bars provides a clear upward view whilst ensuring ultimate strength for safety. The excellent visibility enables you to work faster and more efficient.

"Boost your productivity with Doosan"

Safety

LED lights (optional)

Brighter and last longer than traditional sealed beams or halogen lights.

Emergency switch

The emergency switch can be reached easily when operating the truck.

Large panoramic mirror (optional)

Provides a clear view of the rear working area for the operator, to ensure safe working conditions.

Anti roll back

The controller prevents the forklift from rolling back for 5 seconds when the truck is stopped on a slope.

Automatic Speed Control

The angle sensing information controls the travel speed when turning sharply. It automatically reduces the travel speed to the optimal speed when cornering, reducing the risk of accidents or damage.

OSS (Operator Sensing System)

Whenever the operator leaves the seat, the truck travel and mast lifting functions will stop. This systems avoids any unintended forklift movements when the operator is not seated.

Mast Lowering Interlock & Tilt lock (ISO3691)

When the operator leaves the truck unattended, the hydraulic locking system prevents unintentional lowering and tilting of the mast. It safeguards the truck, the load and the work array.

Doosan Industrial Vehicle **7 Series Electric Forklifts** _ 4.0 to 5.0 Ton Series

Safety & Optimal ergonomics

Safety

Turtle mode

By pushing the turtle mode button when the truck operates in a warehouse, the truck travel speed will slow down to a predefined travel speed setting, without impacting the lifting speed. This mode ensures safely manoeuvring in delicate operating situations.

Easy and instinctive instrument

Operators can control the truck's performance settings during operation, simply by navigating the instrument panel.

Anti slip step & Entry bar

The anti slip step and entry bar help the operator to easily mount and unmount the forklift.

Spacious operator leg room

Adjustable column

The operator can adjust the position of

The thick and large rubber floor mat & the rounded hood offer comfort to the operator's compartment.

Convenience tray

The convenience tray was conceived by adopting combinations of new and old favorites to give the best operator experience. Some of the features include: a large cup holder, a USB port, 12V power outlet, and a clipboard holder.

convenience.

The steering wheel has a compact design that reduces operator fatigue. the column for convenience and comfort.

Small steering wheel

optimized controllability and exceptional reliability makes the new Doosan 7-Series, the operator's first choice.

"Infinite adjustability,

Reliable AC controller

Curtis AC controllers provide an unbeatable combination of power, performance and functionality. The IP 65 rated controller is very reliable and well proven in tough applications.

Rugged and Durable Twin Drive Axle

Twin drive axle is controlled by an integrated drive controller. The twin drive axle effectively transfers the power and torque of the drive motor to the final drive for both smooth and quite operation.

IP43 dust and water protection drive and pump motor

Maintenance free electric motors by eliminating motor brushes and commutators. The new sealed motors are rated to IP43.

ODB (Oil cooled Disc Brake)

Virtually maintenance-free, ODB is standard equipment on the B45X-7. The enclosed brake system eliminates outside contamination significantly extending the brake life up to 5 times longer when compared to conventional shoe brakes.

Doosan Industrial Vehicle 7 Series Electric Forklifts _ 4.0 to 5.0 Ton Series

Great Serviceability

Worldwide service network

Head quarterOverseas offices and service centers

Doosan genuine parts

The warehouse supplies high quality Doosan parts to your local dealer.

Easy accessible controller room

No need to open the hood to access the controller to change settings or connecting the diagnostics tool.

Brake oil indicator

Check the brake oil level and the display warning indicator on the instrument panel. The reservoir can be accessed easily.

Easy view

Simply by connecting the laptop to the forklift, a technician can adjust all the parameters to the operator's wishes. Service can happen easy and fast.

Standard Features and Optional Extras

SAFETY & STABILITY

OSS (Operator Sensing System)	
Anti roll back	
Low battery warning alarm	
Mast lowering Interlock & Tilt lock (ISO 3691)	
Emergency stop switch	
Automatic speed control	
Easy Entry Grab Bar	
Large entry step with anti-slip pattern	
Panoramic mirror	
LED Lights	

OPERATOR COMFORT (ERGONOMICS)

PRODUCTIVITY

Excellent visibility through mast	
Rounded design counterweight	
Hydraulic cushioned valve in secondary cylinder (FFL & FFT)	
Smooth and responsive acceleration	
Fingertip Controls	
Battery Side Lift In and Out	
Battery Roll In and Out	
Auto tilt leveling	
Direction switch on main control valve	

DURABILITY

Full AC system chassis	
IP65 Rated curtis controller	
Robust frame structure & strong structure overhead guard	
Oil-cooled disc brakes (ODB)	
IP 43 rated drive & pump motors	
IP 54 rated drive & pump motors	

SERVICEABILITY

Easy to access controller

Wide open battery hood cover

Toolless side cover
